Internships

Android App Development

HCL Technologies Ltd. (Lucknow)

Jun 2019 - Jun 2019

I worked on an android app with all the basic functionalities of an eCommerce app which can be used for ordering assets for the company.

Web Development

BHARAT HEAVY ELECTRICAL LIMITED (BHEL)

(Jagdishpur)

Jun 2018 - Jun 2018

I worked on the asset management system in this internship using PHP and MySQL.

Projects

Life Detecting BOT

Jan 2019 - Mar 2019

The bot was designed to go to places where humans can not go to find signs of life in case of a natural disaster.

Online Outing System

Jul 2017 - Nov 2017

Our team worked on a website that could potentially replace the outing system in our hostels.

Business Chatbot Android App

Mar 2019 - Mar 2019

I successfully made an app to answer all the FAQs of a bicycle business through a chatbot.

Go Trippin!

Jan 2017 - May 2017

Our team created an online travel website to book tickets. I particularly handled the database management.

Zombie survival game

Aug 2018 - Oct 2018

I created an isometric shooter game on Unity Game Engine.
